Dhafin Fawwaz Ikramullah

Software Engineer | Programmer

Informatics from Bandung Institute of Technology

An Indie Game Developer for fun, a particle vfx/shader enthusiast, and a math enjoyer. My current main specialties are in Mobile, Game, and Web Development which will change in the future since I'm interested in learning more. I've published a game with +5000 installs, worked inside and led teams on projects, and able to work in fast paced environment or under pressure.
